Nurturing Jewish Identity globally

Netaim is a unique program from WeKibbutz and The Kibbutz Movement. The program aims to build and strengthen Jewish/Israeli identity with small communities worldwide, emphasizing small communities lacking an official framework. Netaim's tailor-made and wide range of activities is the essence of creating the connection and closeness of these communities to the values of contemporary humanist Judaism and Israel.

The activities take place in schools and community centers by representatives from Israel, some of whom are new immigrants from the target countries, which makes it easier to bridge language and mentality gaps. This program will be an enrichment to the existing class curriculum and includes projects and workshops. These activities increase the circles of influence for other communities in the region.

Israel Experience

A week-long program in Israel for ages 13-14 in which they will learn practical Hebrew attractively and effectively. They will learn according to the most up-to-date and innovative learning techniques. In addition, they will stay on the Kibbutz and do activities with Kibbutz children their age. Trips to places of interest.

Netaim Goals

Connect small Jewish communities worldwide, which lack a formal presence of other Zionist organizations, to the essence of the Jewish state, the Kibbutz, Humanistic Judaism and Zionism.

Understand and get to know the characteristics of the Jewish community and tailor-make a yearly program according to the needs of this community.

Create a connection to contemporary humanist Judaism through various educational, fun and enriching activities by Netaim representatives from Israel.
